

4th Annual Watershed-friendly GARDEN TOUR

Sunday, June 4, 2006 - 1 to 5 p.m.

Don't miss out on this great opportunity!

This tour features homes in the City of Falls Church, Arlington, Alexandria, and Fairfax County where residents have installed watershed-friendly elements such as porous driveway pavement, cisterns, rain gardens, native plants, and wildlife habitat. Plan to visit five sites in the City of Falls Church to talk with people who have made their yards more watershed-friendly – and to gather ideas for your own property!

Tour begins at 109 W. Westmoreland Road at 1 p.m.

**Following a brief program, a complete list of tour locations
will be available at this site.**

Directions: Coming from the east on S. Washington Street, turn right onto W. Westmoreland Road, between Maple and Cameron. This site features two cisterns, a complete yard makeover, a wide variety of native plants, a backyard wildlife habitat, and metal roofs on the house and garage that produce no toxic runoff as with asphalt shingles.

Special feature:

**Falls Church City residents who visit 4 or more sites will receive a
*FREE COMPOST BIN!***

Sponsored by the City of Falls Church, Arlingtonians for a Clean Environment, Arlington County, and the City of Alexandria. Contact 703-248-5176 (TTY 711) or www.fallschurchva.gov for details.
